## ESTATE PLANNING RESOLUTIONS FOR 2019

It's a new Day in a new Year! Move estate planning to the top of your 2019 resolution list!! There is no time like the present to **implement** or **update** a plan that will be meaningful to your family and you.

**ESTATE PLANNING FROM SCRATCH:** According JD Supra Legal News, nearly 50% of individuals with children do not have a Will and over 40% of individuals over the age of 55 do not have one.

Often, not having a well-thought out plan results in probate-related disputes and litigation, particularly in second marriage situations and in families where grown children do not get along with one another for whatever reason.

The net result of failing to tend to estate planning matters is frequently legal and family chaos carrying with it unnecessary emotional turmoil and family distress, conflicts and delays (not to mention increased legal fees). If you are part of any of these demographics, fix that problem. An estate plan is one of the best gifts you can give to your loved ones. It also gives you peace of mind (should something happen).

**ESTATE PLAN UPDATE:** If you already have an estate plan in place, you should review it periodically to make sure it still reflects your wishes. The New Year is the perfect time to take a few minutes of your busy schedule to check your documents.

- Has something changed in your life since the documents were created?
- Is there a new addition to the family or has someone left us sooner than expected?
- Have you married or divorced since the documents were created?
- Have you moved to a new state or a new country OR do you spend time between two states or countries?

These are only but a few reasons to update your estate plan documents. Go ahead and take a few minutes to review your documents. It is time worth spending!

**The Perrom Law Office, LLC wishes you and your loved ones a healthy, happy, and prosperous 2019!**
